# Shreya Jadhav

**Aspiring Data Analyst | Graduation: 2026**

Pune, India | +91-9834427626 | shreyajadhav1364@gmail.com | linkedin.com/in/shreyajadhav | github.com/shreyajdv

## PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with hands-on experience in SQL, Python, Power BI, Microsoft Excel, and data analysis through internships and academic projects. Skilled in data cleaning, ETL, dashboard development, and creating data-driven insights to support business decisions. Adaptable to ambiguous environments and eager to learn new technologies while growing as a Data Analytics Apprentice at Google.

## TECHNICAL SKILLS

**Programming Languages:** Python, SQL

**Data Analytics:** Data Cleaning, Data Validation, ETL, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, Business Reporting, KPI Reporting

**Tools:** Power BI, Microsoft Excel, Google Sheets, Google Docs, Google Chrome

**Databases:** MySQL, SQL Server Management Studio (SSMS), Firebase

**Core Concepts:** DBMS, Object-Oriented Programming (OOP), SDLC, Agile Methodology, Documentation

**Soft Skills:** Critical Thinking, Problem Solving, Communication, Team Collaboration, Teamwork, Presentations

## INTERNSHIP

**Power BI Intern** **Feb 2026 – Mar 2026**
**AICTE Microsoft Elevate**

- Designed 3+ interactive Power BI dashboards using 500+ records to monitor KPIs and support business reporting.
- Collected, cleaned, transformed, validated, and analyzed data from Excel and multiple sources using Power Query, supporting different stages of the data lifecycle.
- Built data models by creating relationships between datasets to improve reporting accuracy and support data analysis.
- Applied EDA techniques to identify trends, patterns, and insights for reporting and decision support.

## PROJECTS

**Customer Shopping Behavior Analysis • Python, Excel, SQL, Pandas, Power BI** **Jan 2026 – Feb 2026**

- Collected, cleaned, validated, and analyzed 1,000+ customer records using SQL and Python.
- Performed exploratory data analysis (EDA) using Python and SQL to identify purchasing patterns and customer behavior.
- Built interactive Power BI dashboards to communicate insights and support business decisions.

**Retail Sales Performance & Forecasting Dashboard • Power BI, Power Query, Excel** **Nov 2025 – Dec 2025**

- Cleaned, transformed, and validated 4,000+ retail transaction records using Power Query.
- Developed Power BI dashboards to track KPIs, sales trends, and business performance.
- Performed time series analysis and developed a 15-day sales forecast using Power BI to identify future sales trends.

## CERTIFICATIONS

- **Power BI for Business Applications (20 Hours) —** Microsoft Elevate & AICTE | 2026
- **SQL (Basic) Certificate —** HackerRank | 2025
- **Gemini Certified University Student —** Google for Education | 2025
- **Python Programming Certificate —** Wisdom Sprouts IT Training Hub | 2025

## EDUCATION

**B.Tech in Computer Science and Engineering** — KBP College of Engineering, Satara | **Aug 2023 – Jun 2026 | 7.5/10**
**Diploma in Computer Engineering** — KBP Polytechnic Satara **Jun 2023 | 83.29%**
